

The Best-In-Class Training Program For Pharmacy Techs

Take the headache out of technician training with accessible online learning. Simplify the educational experience, improve efficiency, and help reduce medication errors.

RxTOOLKIT eLEARNING™ has partnered with TRC Healthcare in advancement of TRC's Pharmacy Technicians University™ (PTU). This online competency-based curriculum provides all of the tools and information needed to prepare techs for the job and the national certification exam.

Training and certification ensure that pharmacy technicians have the core competencies required to safely perform the full scope of practice as well as the right attitude for advancing success.

Pharmacy Technicians University™ takes the headache out of technician training and compliance with convenient, cost-effective, online training including real-world scenarios and rich media content.

Most importantly, trained, competent, and reliable techs can drastically reduce any facility's overall medication error rate.

Today, pharmacy technicians are increasingly important members of the pharmacy team. Skilled pharmacy technicians are critical for the economic and efficient function of a pharmacy. However, training requirements for pharmacy technicians change often and are becoming more complex, creating a shortage of qualified pharmacy technicians.

Pharmacy Technicians University offers:

- **PTU 101: 80-Hour Program:**

- » Online, accessible from anywhere, always available, and easy to use

- **PTU 101: 110-Hour Program:**

- » Including 30-hours of specialized training essential for institutional pharmacy proficiency

- **Tracking and reporting** at the individual level as well as full program visibility

Let's design your custom **RxTOOLKIT®**

RxTOOLKIT® donates a portion of proceeds from PTU directly to the Emily Jerry Foundation, whose mission is to help make our nation's medical facilities safer for everyone. To learn more please visit www.emilyjerryfoundation.org.

The Right Solution For Your Technicians

The Pharmacy Technicians University training platform is the first web-based learning and education solution to use a unique combination of technology and tools. Pharmacy Technicians University facilitates and tracks learning conveniently online for:

- » Provider and hospital settings
- » Retail and community settings
- » Health and wellness institutions such as long-term care and office based infusion centers

Tailored Curriculum To Meet Your Organizational Needs

- Continuously updated with changes to state laws and regulations
- Achievable curriculum, program components, and practice setting-specific courses
- Convenient, cost-effective online courses, including real-world scenarios, and rich media content
- PTU provides a fast track to increased staffing ratios:
 - » For states allowing increased ratios
 - » In fewer hours for completion to limit impact on productivity

Why Technicians Love Pharmacy Technicians University

- Current course curriculum reflects the latest industry trends.
- Motivating scenario simulations give techs context for active learning and problem solving via "real-life" scenarios that facilitate appropriate information transfer and recall.
- Innovative course design helps technicians learn while developing observational and critical thinking skills.
- Engaging content (including interactive exercises, learning games, and videos) is intermixed with didactic content to accommodate different learning styles.
- Practical resources:
 - » Charts, guides and other tools provide useful references for techs long after their training is complete

Why PTU?

- Well-trained technicians improve efficiency and make fewer errors
- Acquiring trained, certified technicians is incredibly difficult
- The law requires that you have trained technicians, and the bar for training requirements increases every year:
 - » 48 states have regulations regarding pharmacy tech training
 - » 18 states require state board approval for training
 - » 23 states require national certification via national exam
 - » EVERY state considered or implemented some change or update to their regulations in 2016
- Running your own program is time-consuming and expensive
 - » Training content must be continuously updated
 - » Tracking and reporting on your own program is difficult

**PTU makes it all
so much simpler!**
