

The Best-In-Class Training Program For Pharmacy Techs

Simplify the educational experience, improve efficiency, and reduce medication errors with *Pharmacy Technicians University*.

RxTOOLKIT eLEARNING™ has partnered with TRC Healthcare (Authors of *Pharmacist's Letter* and *Pharmacy Technician's Letter*) in advancement of TRC's *Pharmacy Technicians University™* (PTU).

Pharmacy Technicians University is a comprehensive online pharmacy technician training program that includes exam prep for the PTCE® and ExCPT exams. PTU is engaging, self-paced, and interactive!

Training and certification ensure that aspiring pharmacy technicians have the core competencies required to safely perform the full scope of practice as well as the right attitude for advancing success.

Today, pharmacy technicians are increasingly important members of the pharmacy team. Skilled pharmacy technicians are critical for the economic and efficient function of a pharmacy. However, training requirements for pharmacy technicians change often and are becoming more complex, creating a shortage of qualified pharmacy technicians.

Available Programs

PTU 101: (Retail or Provider) (83 hours)

- Didactic training program for retail pharmacy or candidates not required to seek national certification by their state laws or regulation.*

PTU Advanced Training Program: (126 hours)

- Includes the 83 hours from PTU 101 plus 43 additional hours of specialized training (including sterile product preparation) and prepares candidates to take the national certification exam.*

PTU Advanced Training Program: (160 hours)

- Includes the 126 hours from the PTU Advanced Training Program plus 34 additional required preceptor hours, to be completed with either a self or employer coordinated externship.*

*Check your PTCB state requirements regarding national certification: <https://www.ptcb.org/who-we-serve/pharmacy-technicians/cphts-state-regulatory-map#.XLCdfKZ7nUJ>

RxTOOLKIT®

RxTOOLKIT® donates a portion of their proceeds from Pharmacy Technicians University™ to the Emily Jerry Foundation, whose mission is to help make our nation's medical facilities safer for everyone. (www.emilyjerryfoundation.org)

Program Benefits

- Current course curriculum reflects the latest industry trends
- Motivating scenario simulations give techs context for active learning and problem solving via "real-life" scenarios that facilitate appropriate information transfer and recall.
- Innovative course design helps technicians learn while developing observational and critical thinking skills.
- Engaging content (including interactive exercises, learning games, and videos) is intermixed with didactic content to accommodate different learning styles.
- Convenient, cost-effective online courses, including real-world scenarios and rich media content
- Materials are updated regularly to keep up with changing regulations

Providing Value From Your Investment

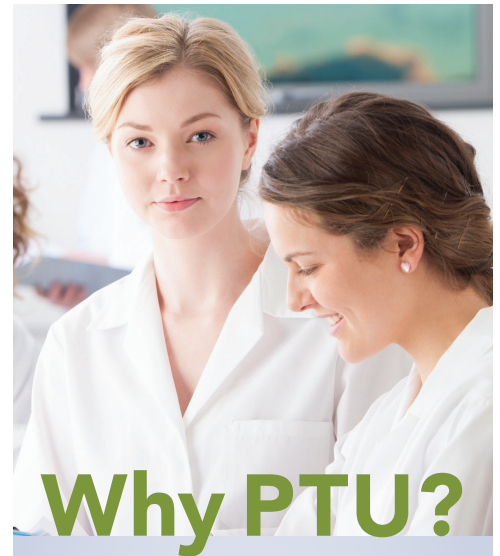

Cost Reduction:

- Constant updates eliminate the need to personally create and maintain course content
- Self-paced, online program allows for more efficient training
- PTU prepares students so they can pass the national certification exam—Our average pass rate is 16% higher than the national average
- Many states permit higher cost-saving pharmacist to technician ratios for certified technicians
- Monitoring state requirements for technicians is time consuming
- Many state regulations require trained/certified technicians, and the training requirements increase every year*

Quality Workforce:

- In-house training ensures consistent skills and knowledge
- Well-trained technicians improve efficiency and make fewer errors
- Training and development improves employee retention
- Well-trained technicians improve accuracy, efficiency and patient safety
- Finding and hiring trained, certified technicians is incredibly challenging

Most importantly, trained, competent, and reliable techs can drastically reduce overall medication error rates contributing to improved patient safety.

Why PTU?

- Easy-to-use and interesting course materials like videos and slides
- Modules divided into short parts you can complete at your own pace
- Knowledge checks and learning activities to help you remember what you've learned
- Web-based training for access from any Internet-connected computer
- Self-paced program provides 365 days of access for completion
- Thorough exam prep for PTCE® and ExCPT exams

PTU prepares technicians for:

- Provider and hospital settings
- Retail and community settings
- Health and wellness institutions such as long-term care and physical therapy centers
- Passing the national certification exam
